

GREAT VERTICAL STATEMENTS

Hakwood wall tiles are decorative wood tiles for vertical surfaces. Our wall tiles are as innovative as they are appealing, and offer a multitude of interior design possibilities.

When creating a vertical statement, architects and designers are in the lead every step of the way. You can really let your creativity run free, while designing a tile, picking a colour and making a pattern. Select a group of tiles installed as a statement piece on a wall, a single strip along the wall or even the whole room from floor to ceiling. Our development lab will collaborate with you during this creative journey.

"With our Wall Tiles, we take our renowned Duoplank to the next level. Our flooring can be the basis for your interior, while our Wall Tiles make your design complete."

—Edwin Hak

DESIGN YOUR OWN PATTERN LANDSCAPE

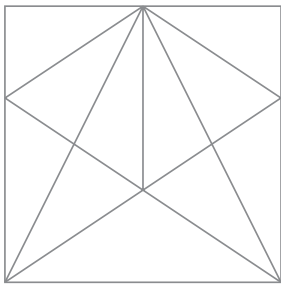

In just a few steps, designers can create their own pattern landscape. First, pick a design for your Wall Tile.

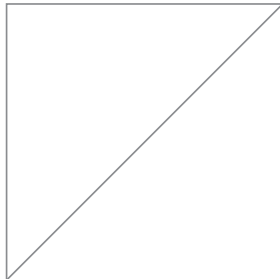

1: CHOOSE A DESIGN

Each tile is a pre-fabricated Duoplank wood tile
available in a variety of dimensions and designs.
Rotate, flip or mirror to give it your personal touch.

2: SELECT AN EXCITING COLOUR PALETTE

When choosing colours, you can choose from our extensive range of finishes. Or create your own in collaboration with our development lab.

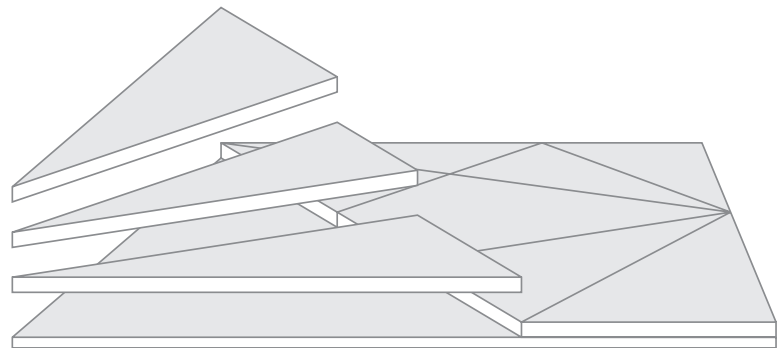

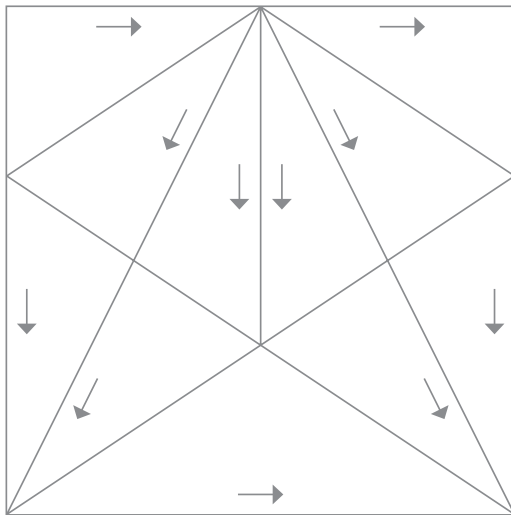

View more colours on our website or in our Colour brochure.

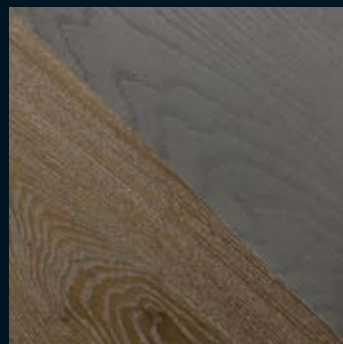

3: MAKE YOUR STATEMENT

You have full flexibility and control with Hakwood wall tiles. In this last step you choose the direction of the grain as well as the thickness of the different tile pieces. As a wall tile, grouping or entire wall your design will be unique.

UNLIMITED OPTIONS

Approach our wall tiles from the opposite angle
by designing the full wall first, then dividing it into
separate tiles.

FLEXIBLE HANGING SYSTEM

We can deliver our wall tiles with a low profile rail and clip hanging system. With the hanging system in place, it is possible to remove and rehang wall tiles. The flexibility offered allows for the exchange of tiles to make a different pattern landscape by removing, rotating and re-hanging tiles in different locations. Or completely replace them with new tiles for a new look.
